KAGISO NEO MOKGWATSANA

PERSONAL PARTICULARS

SURNAME	MOKGWATSANA
FIRST NAME	KAGISO NEO
GENDER	MALE
NATIONALITY	SOUTH AFRICAN
RESIDENTIAL ADDRESS	21 BESEMBOS AVE, KEMPTON PARK, 1619
E-MAIL ADDRESS	kmokgwatsana8@gmail.com
CONTACT DETAILS	073 487 3589 / 071 829 4348
DRIVER'S LICENCE	YES
LANGUAGES	ENGLISH, TSWANA, AFRIKAANS, ZULU, SOTHO

PROFESSIONAL SUMMARY

I am a fourth-year Computer Science student at the Tshwane University of Technology with a strong passion for technology and large-scale software development. Currently specializing in Java development and Data Science, I combine academic rigor with practical experience in building robust, data-driven applications. I consider myself a reliable, dedicated, and proficient individual who strives to perform at the highest standard in every task I undertake.

As an Academic Mentor and Tutor at Tshwane University of Technology, I bridge the gap between theoretical concepts and practical application in Mathematics and Programming. I guide students through the complexities of Java, HTML, and SQL, fostering the logical thinking skills essential for debugging and refining code. This leadership role has deepened my technical mastery while sharpening my ability to communicate complex ideas to diverse audiences.

CORE TECHNICAL SKILLS

Hard Skills

- Programming Languages: Advanced proficiency in Java (including OOP), SQL, and HTML5/CSS3.
- Enterprise Development: Experience with Jakarta EE architecture, Enterprise JavaBeans (EJB) concurrency, and Java Swing development.
- Database Management: Expertise in MySQL integration, JPA (Java Persistence API), and managing persistence units via GlassFish.
- Systems & Infrastructure: Proficient in Linux system administration, including file permissions, group management, and environment configuration.
- Data Science & Analytics: Specialized knowledge in Data Analytics and Machine Learning frameworks through current ALX certification.

Soft Skills

- Analytical Thinking: Strong problem-solving skills and logical reasoning applied to complex system integration.
- Leadership & Mentoring: Proven ability to guide and tutor peers in high-pressure academic environments.
- Adaptability: A lifelong learner with the flexibility to master new technologies and frameworks quickly.
- Collaborative Teamwork: Experienced in working within diverse groups to achieve shared project goals.

ACADEMIC PROJECTS & EXPERIENCE

Academic Mentor / Tutor | First Year Foundation Unit, TUT (2024 – Present)

- Provide intensive academic support for first-year students in Mathematics and Programming.
- Facilitate practical lab sessions focusing on Java logic, HTML structure, and SQL database management.

Student Management Web Application | Technical Project

- Architected a web-based management system utilizing Java, JPA, and GlassFish.
- Configured JDBC connection pools and handled transaction management to ensure seamless database persistence.

Desktop Application Development | Technical Project

- Developed a desktop application using Java Swing within the NetBeans IDE.

- Resolved complex module dependency errors and implemented secure message libraries.

EDUCATION & CERTIFICATIONS

Diploma in Computer Science | Tshwane University of Technology (2023 – 2026 Expected)

- Core Modules: Advanced Programming (Java), Database Systems (SQL), Software Engineering Life Cycle Models, and Data Structures.

Certification in Data Analytics (Machine Learning) | ALX (2025 – Present)

- Focusing on data-driven decision making and implementing predictive models.

Certificate: Web Development Program | CodeJika (2020)

Certificate: Beginners HTML Course | Udemy (2020)

National Senior Certificate | Sir Pierre Van Ryneveld High School (2017 – 2021)
